

2016 SARC Annual Report

California Department of Transportation, District 9

Alternative Name(s): Caltrans District 9

Agency Type(s): Caltrans

Report Type: Full

Physical Address:

500 South Main Street
Bishop, CA 93514
County: Inyo
Jurisdiction: Bishop

Mailing Address:

500 South Main Street
Bishop, CA 93514

CalRecycle Representative:

Rhiannon McCollough
Rhiannon.McCollough@calrecycle.ca.gov
ov
(916) 341-7314

Number of Employees at Agency: 138

Annual Report Status: Submitted

Submitted by Jessica Klemencic (jessica.klemencic@dot.ca.gov) on 4/24/2017 3:28:12 PM

Additional AnnualReport Information

The information below is additional information for this annual report provided by the Agency to CalRecycle staff.

No additional information provided.

This report summary displays the report information as submitted by the agency. To see the final report after any corrections made during the CalRecycle staff review please see <http://www.calrecycle.ca.gov/StateAgency/Reporting/>

Annual Per Capital Disposal

Employees

Total Number of Employees: 271

Explain who was included in this number and how was this employee number calculated.

All employees, including field maintenance, construction, mechanics, field management and D.O. personnel were counted. Crew lists and phone lists for each location were used and count was verified with HR personnel.

Non-Employee Population

Total number of non-employee population: 996450

Population Type: Visitors

How was this population number determined?

Visitors are at the safety roadside rest areas. Figures are based on the average daily travelers from traffic count loop data. Our disposal amount also includes Adopt-A-Highway trash bags and other debris that we pick up off the shoulder of the road after the adopter or area employees clean their area. In this case the non-employee group would be the highway travelers that throw or lose trash out of their vehicles. We have not realistic way to track or even estimate that figure.

Disposal

Total amount disposed: 6,953.64 tons

Total transformation: 0.00

How was this disposal number determined?

Weight slips are used whenever available. Weight-to-volume estimates were used when weight slips were not available.

Annual Results

	<u>Employee Population</u>		<u>Non-Employee Population</u>	
	<u>Target</u>	<u>Annual</u>	<u>Target</u>	<u>Annual</u>
Per capita Disposal Rate (pounds/person/day):	192.40	140.60	0.00	0.04
Per Capita Transformation Rate:	38.50	0.00		
Calculated Disposal Rate (pounds/person/Day):	--	140.60		

This report summary displays the report information as submitted by the agency. To see the final report after any corrections made during the CalRecycle staff review please see <http://www.calrecycle.ca.gov/StateAgency/Reporting/>

Questions

What types of waste are still thrown away (not reused, recycled, or composted)?

Everyday office trash from daily operations; some construction materials; trash picked up along the highway.

What difficulties or obstacles have you had with finding ways to recycle, reuse or compost these types of wastes?

The opportunities for recycling, due to being in a low population density, rural, remote area, are not as available as in areas closer to recycling centers. This is especially true compared to areas with curb-side pickup. Fuel costs often make transportation of the recyclables infeasible. Inyo County is continuing to make improvements in this. However, there is a long way to go. From what we have been told, their scales are still not reliably functional. Mono County, for example, only takes #1 & #2 plastics and does not take chipboard, newspaper or scrap metal like tin cans. There are areas of Eastern Kern that tell us that they put green waste in the landfill because that particular site is too far from their main recycle areas. Our district covers Inyo, Mono, Eastern Kern and part of Northern San Bernardino Counties.

Programs

Recycling

- Beverage containers
- Glass
- Cardboard
- Office paper (white)
- Office paper (mixed)
- Confidential shredded paper
- Copier/toner cartridges
- Scrap metal
- Wood waste
- Tires
- Construction materials/debris

This report summary displays the report information as submitted by the agency. To see the final report after any corrections made during the CalRecycle staff review please see <http://www.calrecycle.ca.gov/StateAgency/Reporting/>

<https://secure.calrecycle.ca.gov/SARC/AnnualReport/Reports/Default.aspx?AnnualReportID=1451>

Date Generated: October 9, 2017 3:34 PM

Page 9 of 23

Our regular trash hauler provides separate bins for cardboard, green waste, aluminum, glass and #1 & #2 plastics. We contract with Shred Pro for paper (all types) recycling. Printer cartridges are donated to a local 501 3(c) for recycling. Employees recycle CRV containers. Scrap metal is picked up by a local vendor for recycle. Non-treated wood waste is put in the green waste dumpster or depending on size, is taken to the chipper area of the landfill. Treated wood waste, oil, oil filters, solvents, tires antifreeze, batteries, paint, fluorescent light tubes, etc. are disposed of through our hazardous materials contract or at the appropriate recycle area at the landfill. Electrical waste (phones, computers, copy machines, printers, all the related cords, etc.) are taken to the appropriate recycle area at the landfill or to an e-waste disposal area, usually in Bakersfield.

Material Exchange

Nonprofit/school donations
Internal property reutilizations
State surplus (accepted by DGS)
Used book exchange/buy backs
Employee supplies exchange

Surplus equipment, office furniture, office supplies, etc. are offered to other employee groups, non-profit groups, schools and other State agencies before they are sorted for recycle and disposal. The local landfill also has a "free" section for items that have gone through our regular process and still unwanted but are potentially usable (maybe with a little repair or elbow grease).

Waste Prevention/Re-use

Paper forms reduction - online forms
Bulletin boards
Remanufactured toner cartridges
Retreaded/Recapped tires
Reusable boxes
Reusable pallets
Electronic document storage
Intranet
Reuse of office furniture, equipment & supplies
Reuse of packing materials
Reuse of construction/remodeling materials
Double-sided copies
Email vs. paper memos
Rags made from waste cloth or reusable rags

This report summary displays the report information as submitted by the agency. To see the final report after any corrections made during the CalRecycle staff review please see <http://www.calrecycle.ca.gov/StateAgency/Reporting/>

<https://secure.calrecycle.ca.gov/SARC/AnnualReport/Reports/Default.aspx?AnnualReportID=1451>

Date Generated: October 9, 2017 3:34 PM

Page 10 of 23

Management encourages the use of 2-sided copying and reuse or reassignment of various materials whenever possible. Unfortunately, our HQ Accounting/Audit rules for many of our functional units still require paper copies of most of our documents rather than relying on electronic copies. Our property control policies for State property make it impossible for State workers to take items deemed unusable home for reuse. These end up at the landfill, hopefully for someone else to take.

Green Procurement

Recycled Content Product (RCP) procurement policy
Staff procurement training regarding RCP/EPP policies
RCP/EPP and/or SABRC requirements language included in procurement contracts for products/materials
These are done primarily at the Department or State wide level (contracts). But, is now part of our Acquisition Manual.

Training and Education

Signage (signs, posters, including labels for recycling bins. Existing or planned for 2017.)*
Employee training (Existing or planned for 2017)*
Adequate number and condition of receptacles (Existing or planned for 2017.)*
Web page (intranet or internet)
Brochures, flyers, newsletters, publications, newspaper articles/ads
Office recycling guide, fact sheets
Outreach (internal/external) e.g. environmental fairs
Employee education and awareness is accomplished through e-mails, signage, newsletter, etc. Recycling is now part of our Mission, Vision and Goals for Caltrans.

Organics

Organic Materials Generated at this location:

Green Waste
Landscape and Pruning Waste

Amount of Materials Generated:

Less than two cubic yards of solid waste per week

Determination Type:

Current Service Level Analysis based on hauler bills or receipts

Reuse and Waste Prevention Programs for these materials:

Other our green waste is hauled separately and recycled at the landfills.

This report summary displays the report information as submitted by the agency. To see the final report after any corrections made during the CalRecycle staff review please see <http://www.calrecycle.ca.gov/StateAgency/Reporting/>

<https://secure.calrecycle.ca.gov/SARC/AnnualReport/Reports/Default.aspx?AnnualReportID=1451>

How are you diverting your organic materials at this location?

<u>Diversion Category</u>	<u>Diversion Method</u>	<u>Explanation</u>
Green Waste or Landscape and Pruning Waste	Other	The landfills identify what can be recycled and do so accordingly.
